

The Rev^d Ann Bullock who went home Feb^r 19th 1771

has noted the following I was born at Maningom
in the Parish of Bradford Aug^t 29 1743 of Church of
England Parents, But did not feel any Concern for my salvation
being very wild till in my 10 year, the thought once struck my
mind, if I went on as I did I should not be saved this caused
me some uneasiness for a time, but ^{upon} vanished in the delight
I took in my vain pleasures, as I grew older I felt the depravity
of my own nature and the propensity that lay in me to every
evil, which I had not power to withstand, notwithstanding the
convictions I felt to the contrary, which I did my best to stifle
as far as possible, My Mother, Once took me aside, and
with great Concern spoke very closely to me about my bad
Course telling me that the Lord saw every thing, & knew how
I went on, asking me at the same time how I could be
answerable for it when I should once appear before Him,
this affected me for some time, and I sought as well as I
could to amend my life, that I might thereby merit the favour
of god towards me, this lasted not long neither, before I
was as bad as ever. My Parents being rec^d into the Society
my Mother often asked me to go with her to the Meetings
to which I had no inclination & therefore putt it off till in
the year 1763 When my Mother was taken very ill, the B^{on}
often visited her, by which means I got first a Love to them
thinking there was something discernable in them I had never
^{seen} in any people before, from this time I went to hear them
and it was soon clear to me I belonged ^{to} them, I soon made my
desire known to be rec^d into the Society, which was granted
me 2 days before my Mothers departure, after my mother
was gone I could no longer settle at home, but wanted to
live with Sisters my Sister being of the same mind with me,
she obtained leave to go to general Economy, and a short
time after I had leave to go to Holme Economy, but not
being quite settled in my self, I was persuaded by my Father
to return to him, During my stay with him, I had no satisfaction
wanting to go back, but could not get directly leave, but

rather an admonition which proved a real Blessing to me
I stand with my concern to our Saviour who proved my friend
My Father by means of a conversation with B^r Charles worth
which was at the same time a Blessing to me also, in kind
more willingly to let me go, & in a short time I returned to
the same Economy, after some time spent not so agreeably
we spoke our minds to our Labourers concerning our Situation
after which we got Ellen Lee to live with us from the Choir
House, with whom we soon after moved to Little Moore, here
I felt at times very cheerfull, got long'd very much to
experience the full assurance of my sins being forgiven me
which I knew I had never rightly felt, it was not long before
I enjoyed that grace for which I can't sufficiently thank
and praise ~~him~~ ^{him} July 9 1756 or 1757 I was rec'd into the Congⁿ
to my great Joy, and abasement, and aug^t 19 the same year
obtained leave to move to my d^r Choir House, which rejoiced
me very much, on account of my sickly state I went directly
into the Sick room where I spent most of my time, it has been
indeed a School of grace to my heart Especially, when our Sav^r
has made one after the other felt for his eternal Embraces,
which proved a matter both of Joy & Pain to me, Joy on their
account but Pain on my own, knowing he had not as yet attained
his full aim with me, by bringing me thro this sickly habit of
Body to rely steadfastly on him the true Physician, I felt a
longing desire to become a participant of his Corpse & Blood
sacramentally it seem'd long to me before I enjoyed this grace
but when I partook for the first time July 16 1756 I can never
express what my poor heart enjoy'd, from that time I came
more solidly acquainted with my own poverty, and unworthiness,
but deprived my self of the true enjoyment of the sinners happiness
thro reasoning & striving to help my self, being unwilling to
appear as I really was, which since then has caus'd me some
painfull reflections, in Dec 7 1756 I had a severe fit of sickness
at which time Our Sav^r manifested himself to me in such
a Manner, that I could ~~find~~ ^{find} ~~no~~ ^{no} ~~rest~~ ^{rest} in him, knowing that
he was mine, and that I shou'd remain his to all Eternity to

the unworthy of the Least of all his Mercies,
thus far her own account "

Our Saviour has in a very peculiar manner accomplish'd his
work in our happily departed Sift. She was of a close
disposition, & did not like to be a sinner till our Sav^r
thro various means overcame her, it caus'd both her &
her Sift^r much pain to perceive that tho, she suffer'd
so much in her Body, yet had always a reservedness,
her sickness being of a peculiar nature, together with
this caus'd the Sift^r often perplexity, as well as made
it very heavy to her, she was otherwise of a submissive
temper & thro her good behaviour, gain'd the Love of
her Sift^r During her abode in the Sick room where
she spent 2 whole years, About 4 months ago her
disorder terminated in a Consumption, and Our Sav^r
according to his bountifull Dealings gave her that ~~in~~
inexpressible grace, that she got a clearness with Him,
and know on whom she believ'd ^{that} Her fears & apprehensions
about leaving her Body & the approach of Eternity vanish'd
in the happy expectation, of seeing her wounded friend,
often repeating her longing desire that he might come soon
Our Sav^r granted her in her latter days a real Sabatical
enjoyment of his Mercies, & tho her Cough was troublesome
to her, she had not much pain Continuing to look
out for that happy Moment which came to her
great Joy ~~on the 10 of Feb~~ ^{when she departed} about 10 in the forenoon
with the Blessing of her Choir -
